## Cost Savings Award goes to Chef Keller

From time to time, our President/CEO, Gerry Gabrys, presents this special award to someone in the company who has demonstrated initiative and creativity and in the process saved the company money. This year, the award went to Executive Chef Duane Keller of Potowmack Landing Restaurant. Since joining Potowmack Landing on October 14, 2002, Chef Duane has improved the food cost by more than five percentage points and reduced food inventory by over 50%.

"I believe in freshness," says Chef Keller. "There is hardly anything on our shelves at the end of the day because I insist on fresh products delivered daily."
